**MEDISEND INTERNATIONAL:** Dallas-based nonprofit Medisend International, which provides support for under-resourced hospitals in developing nations, recently held a graduation ceremony for 10 graduating biomedical repair trainees from African hospitals. Attending the ceremony were, from left, Dan Butcher, board co-chairman for MediSend International and managing partner of Strasburger & Price; Kristina Mitchell, community investments programs officer for Exxon Mobil Corp.; and Ken Maddock, director of clinical technology services (biomedical engineering) for Baylor Health Care System.
